

Editor's Note: Congratulations to the 2019 Author and Reviewer Award Winners

Richard Saitz, MD, MPH, FACP, DFASAM

*J*ournal of Addiction Medicine recognizes individuals for their contributions to the journal this past year. Marc Fishman, MD, is the winner of the Most Viewed and Downloaded Paper award for “Safety and Efficacy of Lofexidine for Medically Managed Opioid Withdrawal: A Randomized Controlled Clinical Trial” that appeared in the May/June issue. The article had 1395 full-text views or downloads in 2019.¹

The Journal also recognizes three reviewers for their extraordinary efforts who were tied for winner of the Most Reviewed Articles award, each reviewing 9 manuscripts in 2019. They are Drs. Laura Fanucchi, Joe Westermeyer, and Jan Gryczynski.

These annual awards, with modest monetary prizes and public recognition, started in 2016, and recognize the successes and efforts of authors and reviewers who help support the quality and impact of the *Journal*. The awards are normally presented at the Editorial Board Meeting held as part of the annual meeting of the American Society of Addiction Medicine, but with these not being normal times, we announce them here and presented them electronically in April 2020.
